BULBS
PLANTS
SEEDS
AND SHRUBS
—FOR—
FALL PLANTING

The McGregor Bros. Co.,

SPRINGFIELD,
OHIO.

IT IS WITH PLEASURE that we present this new edition of our Autumn Catalogue of Bulbs and Plants. Although this issue is not as handsome a catalogue as our last spring's book, yet our stock of bulbs, plants, etc., enumerated herein is the finest that can be obtained.

Our business dates from 1867, and during this time it has increased to such an extent that we now operate one of the largest establishments of its kind in the United States.

Our bulbs, which we import direct from the largest Holland growers, are of the finest, both as to variety and quality of bulb.

Our prices will be found to compare very favorably with those of other reliable houses, and are, in fact, as low as is consistent with superior quality. Purchasers will find it to their advantage to order early in the season—soon after the receipt of this Catalogue as convenient—while our stock is complete and unbroken. With the exception of Lilies and some few other varieties (which are noted) we will be ready to fill orders early in September, about the date this Catalogue will reach you.

Our General Catalogue for the Spring of 1904 will be ready early in January. All purchasers from this Catalogue, and all who have been customers previous to this date, will receive a copy free at the time it is issued, and without applying for it; others wishing it will please write for it. Should any of our patrons have friends requiring Bulbs, etc., we would be pleased to forward a copy of this catalogue on receipt of name and address. Customers changing their residence will kindly furnish us with their new address, so we may mail Catalogue properly.

Orders Lost or Stolen. Sometimes it happens that orders never reach us. When customers fail to receive their plants within a reasonable time, they should inform us of the fact, and at the same time send a duplicate of their order, also stating the form of remittance and date of original order.

Use our Order Sheet, Filling all Blanks Carefully. In making out your order please use the convenient Order Sheet which accompanies each Catalogue. If it is necessary to write a letter in addition, let it be on a separate sheet.

New Low Express Rates. We call your attention to the new low express rate, which is a reduction of 20 per cent. from the regular merchandise rate at which plants have been expressed heretofore, and also that packages of less than 100 pounds are billed at 100 pound rates.

REMEMBER, Plants and Bulbs can now be shipped at a Lower Rate than any other class of Merchandise.

Bulbs and Plants by Mail. When plants are ordered by mail, we prepay postage, delivering the plants and free of all expense to any postoffice in the United States; when shipped by express, purchaser pays charges; but we can send larger plants and will send some extra plants to help the expressage.

Our Terms are Cash with the Order. No order sent C. O. D. unless a remittance of one-fourth of the amount of the order be made to guarantee the acceptance.

How to Remit—Postoffice Orders. The safest and most convenient way of transmitting money from one point to another is by means of postoffice orders; if these are lost a duplicate can easily be obtained, and there is no danger of their being stolen, for no one can obtain money on them except the person to whom they are addressed. They can be obtained at most postoffices, but not all. The fee is but 5 cents for \$5.00 and under.

Express Money Orders. If more convenient, money can be sent in this way with perfect safety, as in case the letter is lost a duplicate can be obtained if you are careful to keep your receipt.

Bank Drafts. These should be drawn on New York City, and made payable to the order of The McGregor Bros. Co.

We Will be Responsible for Money Sent by Any of the Above Methods.

Loose Money enclosed in a letter is at the risk of the sender.

Individual Checks Cannot be Received in payment for plants; neither can we accept Canada, or Mexican silver or paper money.

Postage Stamps. These can be sent for fractional parts of one dollar or where postoffice order cannot be had, provided an two cent extra stamp is sent with every remittance. None but stamps in perfect order will be accepted.

Kindly keep a copy of your order to compare with plants received.

References. If you have any fears that we will not perform what we promise, we refer you to the First National Bank of this city, or to the Postmaster.

Address all Letters and make drafts, money orders, etc., payable to

CULTURAL DIRECTIONS.

The first requirement for success, is, that the bulbs are sound, therefore, buy from a reliable house.

The soil which almost all bulbs, that is Dutch bulbs, require, is a light sandy loam, well enriched by rotted manure. Procure a good mellow soil from the meadow, pasture, or go to the woods and scrape the light soil from the top of the ground. To this add about one-third old well-rotted manure and some sand. Mix it thoroughly and then you have a soil which will be the very best for bulb culture for potting, bedding or for window boxes.

The bulbs are planted in the fall and allowed to remain in the ground all winter, a well drained location being preferable. Place the bulbs about 6 inches apart and cover with about 3 inches of soil.

CALLAS

The Great Dragon Arum

This plant has the honor of producing the largest flower of any plant that is hardy in this country. They are simply enormous. The leaf stems and flower stalks are all spotted with purple, like an adder, and upon the tops of the latter opens a flower of gigantic size and curious color. On the outside it is of a light green color, while the inside is of a deep red-purple, glistening beautifully in the sun with a satin sheen. The spadix in the center of the flower is of a glossy, purple black color. As will be seen from the cut, the plant resembles a palm in general appearance. Price, good bulbs, 15 cents each; extra large bulbs, 25 cents each.

Calla Richardia, Spotted Calla

The Richardia Alba, or Spotted Calla, is a plant of magnificent appearance. The leaves are of the richest green, spotted with pure white; the flowers are white, with a rich chocolate throat. It can either be grown in a pot, planted in a border, or in a vase or rustic stand, the latter being a very effective way of showing its beauty. Price, 10 cents each; large bulbs, 20 cents each.

White Calla Lily

This is the old white Calla that is so well known it needs very little description. The foliage is a beautiful deep green and flower a pure white and perfect form. Good bulb, 10 cents; extra large bulb, 20 cents.

Dwarf Calla "Gem"

Having given it a fair trial with the ordinary variety known as the Calla Lily, the only objection to the old variety is that it sometimes grows tall and scraggy; but the "Gem" is of strong and dwarf habit. The foliage is of a lustrous dark green, is produced in great abundance. Its flowers are produced in the greatest profusion, being literally an ever-bloomer. Price, 15 cents each; two for 25 cents.

Calla Gem.

Spotted Calla.

Amaryllis Johnsonii

One of the most gorgeous bulbous plants grown. We have seen specimens of a few years' growth that completely filled a window. Nothing is more showy than this grand plant during late winter or early spring, bearing large flowers of intense crimson with a delicate white feather in each petal. It is most superb. Price, 35 cents each.

Amaryllis Equestre

Valuable for house, conservatory or garden. The flowers are a bright salmon-pink, with a distinct snow-white blotch at the base of petals. After blooming season, withhold the water and allow the bulb to dry, then put it in some cool, dry place for a season of rest. Price, 15 cents each.

FINE MIXED GLADIOLI

Our mixed Gladioli embrace a magnificent variety of beautiful colors, all the poorer sorts having been discarded when in flower. We trust that many of our friends will avail themselves of these very low prices to plant largely; the spikes of bloom, richness and brilliancy of color are out of all proportion to the trifling cost. Price, extra fine mixed, of all colors, three for 10 cents; 30 cents per dozen, or \$2.00 per 100, postpaid; by express, \$1.75 per hundred.

SPREKELIA FORMOSISSIMA

Mexican Scarlet Lily.

Any description would be inadequate to give a correct idea of the superb brilliancy of the flowers of this Lily. They are of a dark velvety-scarlet, shading to maroon and having a satiny-white stripe in the center of each petal. In form more graceful than any Lily we know of. They must be seen to get a proper idea of their gorgeous magnificence. Plant the bulbs either in sand and pebbles covered with water, like a Sacred Lily, or in pots filled with good, rich soil. If planted in the same manner as the Chinese Sacred Lily the blooms will appear much sooner, but will not last so long as when planted in earth. Try two or three of these bulbs planted together, and a gorgeous display is assured. Price, 15 cents each; two for 25 cents; three for 35 cents.

FINE DOUBLE HERBACEOUS PAEONIES

We herewith offer some of the newest and most beautiful varieties in cultivation. These noble plants are exceedingly effective; the profusion and duration of bloom, combined with handsome massive foliage, accommodating habits, and easy culture, render them one of the most popular hardy plants grown for lawn and garden decoration, or for mingling with shrubs, or amongst herbaceous plants in borders and wild gardens. The flowers are large, massive, perfect in outline and most beautiful. We offer fine named kinds, distinct colors, 30 cents each.

The Bermuda Buttercup Oxalis.

SNOWDROPS

These are the first flowers to greet us in the spring, their pretty, drooping, snow-white blossoms appearing in March, a few days ahead of *Scilla Siberica*, with which they form a charming contrast. They are also charming for house culture in pots, blooming usually at Christmas. The Giant Snowdrops we offer are much superior to the common variety, producing larger flowers.

Giant Single Snowdrop—Price, 3 cents each; 25 cents per dozen.

Giant Double Snowdrop—Price, 4 cents each; 30 cents per dozen.

Snowdrop, Elweisii—A very large, tall variety. Fine for cutting. Flowers three times the size of ordinary Single Snowdrops, and sweet-scented. Price, 4 cents each; three for 10 cents; 35 cents per dozen.

Sparaxias

These differ from the *Ixias* in their dwarf habit, time of flowering and brilliancy of coloring, ranging through the various shades of crimson, scarlet and white, mottled, striped and splashed in every conceivable manner. Cultivate as *Ixias*. Price, 3 cents each; two for 5 cents; 25 cents per dozen.

Scilla Siberica, or Star Hyacinth

Scilla Siberica is one of the loveliest spring flowers. Color almost as deep as the sky itself. Quite hardy, and flowers out of doors at the same time as the Snowdrop, in front of which it gives a splendid effect. Planted in pots and kept indoors, it may be had in bloom as early as Christmas. Its magnificent flowers make it suitable for any decorations whatever. Price, two for 5 cents; 25 cents per dozen.

Scilla Nutans

(Belgian Hyacinth)—Habit like Hyacinth, a spike with bells suspended. The bells are half the size of Hyacinths. Colors very distinct and attractive. They bloom in May. The colors are blue, pink and white. Price, either of the three colors you may desire, two for 5 cents; 25 cents per dozen.

The Bermuda Buttercup
OXALIS
 An Unrivalled Winter-Flowering Pot Plant
 of the Easiest Culture, Succeeding
 with Everybody.

This is one of the finest winter flowering plants for pot culture that we have ever seen; it is such a strong, luxuriant grower that one bulb will be sufficient for a 7 or 8-inch pot. Place in a dark, cool position for a few weeks to root thoroughly, and remove to a sunny situation in the window, and the great uninterrupted profusion of bloom produced for weeks will astonish and delight you. The flowers are of the purest buttercup yellow. When grown in a partially shaded situation the flowers remain open all the time. Properly treated, the plant will flower in six weeks from the time the bulbs are planted. Price, 5 cents each; 6 for 25 cents.

OTHER OXALIS

Price, 3 cents each; 25 cents per dozen.

Admirably adapted to house culture, and nothing is prettier for window plants, as they flower freely. Plant in pots, six or eight bulbs in a pot, and cover about one inch deep.

Bowell—Vivid rosy crimson, large flower, remarkably fine.

Versicolor—Rose and white; delicately beautiful.

Cernua Flora Simplex—Fine single yellow.

Mixed Oxalis—Fine bulbs in mixed colors, which will make a very pretty effect when planted together. Price, 2 cents each; 20 cents per dozen.

Snowdrops.

IXIAS

The *Ixias* produce their beautiful flowers in spikes, and are of the most dazzling and brilliant colors, and sure to attract great attention. It is only a few years that they have been grown in this country to any extent, but in that time, like the *Freessias*, they have become very popular. For pot culture in the house they give great satisfaction, being easy of culture and free bloomers. Plant in October (six to eight in a 5-inch pot) in sandy loam, one inch deep, pressing the soil firmly over the bulbs. Water sparingly until the flower spikes appear. They may then be brought to the light and given plenty of air, sunshine and water. Finest new English sorts in variety. Price, 3 cents each; two for 5 cents; 15 cents per dozen.

Dielytra Spectabilis.

DIELYTRA SPECTABILIS. (Bleeding Hart)

These pretty spring bloomers, with their graceful, drooping sprays of heart-shaped pink and white flowers, are very ornamental, and bloom freely early in the season. The plants, being hardy, increase in size and bloom from year to year, and should have a place in every garden. Price, 20 cents.

IRIS HISPANICA. (Spanish Iris.)

This is a most charming dwarf Iris, suitable for planting in beds or for pot culture. They furnish a most brilliant mass of color, and nothing more effective can be planted in the border. We offer three named sorts, as follows:

Chrysolora—Yellow.

Darling—Blue.

Blanche Superbe—White.

Price, two for 5 cents; 25 cents per dozen.

PEACOCK IRIS.

Iris, Pavonia (Peacock Iris)—This beautiful Iris is very attractive. It is a sky-blue color, with a peacock eye of dark blue on each side of the petals. It certainly is a gem. Price, two for 5c; 25c per dozen.

Spanish Iris.

SPARAXIAS.

These differ from the *Ixias* in their dwarf habit, time of flowering and brilliancy of coloring, ranging through the various shades of crimson, scarlet and white, mottled, striped and splashed in every conceivable manner. Cultivate as *Ixias*. Price, 3 cents each; two for 5 cents; 25 cents per dozen.

FRENCH RANUNCULUS.

Strikingly beautiful flowers, well adapted to pot culture in the house. The individual flowers are about two inches in diameter, as full and double as the finest *Camellia* or *Rose*. They are not hardy, and some pains must be taken to insure success when planted out in beds. Like *Anemones*, they do best planted in very rich soil, having a southerly exposure to escape our sharp winds and too much sun. The beds should have good drainage, and the soil be light and warm. Plant three inches deep, in October or November, and press the earth close around them. On the approach of cold weather the beds should be thoroughly protected with leaves, litter or manure, which should be covered with boards. When warm weather approaches, this covering is removed, and success is tolerably certain. Price, 4 cents each; 8 for 25 cents.

SUMMER-FLOWERING HYACINTHS.

Hyacinthus Candicans—This is unlike our spring-blooming *Hyacinths*. Its leaves are deep green, fleshy, resembling some of the *Yuccas*. The flowers are white, in handsome pendulous bells arranged on pyramidal spikes, often reaching the height of five feet or more in strong plants. A strong bulb will give from two to three flower spikes, and these produce from thirty to fifty flowers. The plants come into bloom in July and bloom continuously until October. Price, 10 cents each; three for 25 cents.

THE BEAUTIFUL LEMON LILY OF SIBERIA. (*Homeroicallis Flava*.)

One of the most beautiful and desirable Lillies in existence. You plant it once and you have it for all time. Few plants present a more striking appearance on the lawn or border than a large clump of this clear lemon-colored Lily, which is produced in the greatest profusion, lasting in flower for a long time. It is perfectly hardy, requiring not the slightest protection and no care, after being once started. Price, 20 cents each.

Lemon Lily of Siberia.

The True Bermuda Easter Lily.

The True Bermuda Easter Lily, **LILIAM HARRISII**.

This peerless Lily is the greatest acquisition to floriculture made in many years. Their profusion of bloom, the remarkably short time required to bring them into flower, and the certainty to produce abundant bloom and also the ease with which they can be manipulated to be flowered at any desired period, such as Christmas, Easter and other special occasions, render them invaluable. The flowers are delightfully fragrant, pure waxy-white, of great substance, and if cut as soon as they are open or partially open, they can be kept for two weeks. Bulbs potted in August can be had in flower in November if desired. The quantity of bloom produced is marvelous, the average production of bulbs five to seven inches in circumference, even when forced, is from five to eight flowers; and of bulbs seven to nine inches, eight to twelve flowers. Blooming plants in pots form typical Easter offerings and presents, for decoration of the window, table, house or church. Nothing is more appropriately beautiful and highly appreciated. Thousands upon thousands are sold in the large cities every winter for this purpose. As a garden Lily it is of great beauty, being entirely hardy excepting in northern climates where it requires a protection of leaves or litter to the depth of five or six inches. Price, 20 cents each; three for 50 cents.

Lilium Candidum

The Madonna, or Annunciation Lily.

This Lily is the emblem of purity. The deep lemon anthers contrast beautifully with the wax-like petals. The fragrance is delicious and never oppressive. It is one of the best of Lilies to grow in the house or outside; perfectly hardy. Price, 15 cents each; four for 50 cents.

Lilium Speciosum Rubrum

Lancifolium.

Large wide flowers, recurving more or less at the tips. Among the showiest of all Lilies, and perhaps the most robust and the most radiantly beautiful. Very fragrant and hardy. Lovely rose and white, spotted crimson. Price, 20 cents each.

Lilium Speciosum Album

A variety of the above, with broad, flat stems and immense heads of flowers. Pure white and very fragrant; petals gracefully recurved; a very fine sort. Price, 20 cents each.

LILIAM AURATUM

Golden-Rayed Queen of Lilies.

The grandest Lily grown, and a never-failing delight. We take pleasure in showing it to people who have never seen it. It seldom fails to create a sensation. The perfume is exquisite—light, yet penetrating. Magnificent by daylight, but by moonlight a well-grown plant, carrying five or more blooms, is simply indescribably beautiful. Also known as "Gold-Banded Lily from Japan." Price, 20 cents each. Ready in November.

Lilium Speciosum Roseum

Beautiful and stately Lily; lovely rose and white spotted deep rose; very fragrant and hardy; no garden is complete without it. Price, 20 cents each.

Lilium Tigrinum Flore Pleno

(Double Tiger Lily)—This is a plant of stately habit, growing from 4 to 6 feet high, bearing an immense number of double bright orange red flowers, spotted with black. Price, 15c each.

Cyclamen, or Persian Violet,

New Improved.

There is no more ornamental plant for greenhouse or parlor culture than the Cyclamen. It grows readily, blooms freely, and remains a long time in flower. The soil should be equal parts of turfy loam, leaf mold and silver sand. Put in pots three times the diameter of the bulb in October. Keep them in a cool, light place, watering lightly until growth begins. Then water freely and give plenty of light and air. On the approach of cold weather remove to a warmer situation, the parlor or greenhouse, but keep them near the light. The whole secret of growing Cyclamens to perfection is light, air and low temperature. Price, 10 cents each; large strong plants, 25 cents each.

Cyclamen.

PLANT DEPARTMENT.

Three Splendid Hardy Climbing Roses.

THE FAMOUS NEW HARDY CLIMBING ROSE, **CRIMSON RAMBLER.**

This superb novelty is of the Polyantha class. Flowers are produced in great pyramidal panicles or trusses, carrying from 30 to 40 blooms, the individual flowers measuring from 1 to 1½ inches in diameter, and remaining perfect on the plant for upwards of two weeks with their freshness of color unimpaired; foliage bright green and glossy, and contrasts finely with the bright crimson of the flowers. It is exceedingly hardy. We can recommend this novelty in the strongest manner as being a new Rose of great importance and value. Price, 10 cents each; large two-year-old plants, 25 cents each.

The New Hardy Yellow Rambler, **AGLAIA.**

This new Hardy Climber produces its flowers in the same manner as the popular Crimson Rambler—that is, in large pyramidal-shaped trusses, frequently being from 50 to 100 flowers in a truss. In color it is a decided yellow, with moderate-sized cup-shaped, nearly full flowers, which are sweetly scented. Its habit of growth is very strong, frequently making shoots of eight to ten feet in one season. Price, 10 cents each; strong two-year-old plants, 25 cents each.

CLIMBING WHITE PET.

This is an unusually vigorous grower and a wonderfully profuse bloomer. It is remarkable for the rapidity of its growth and freedom of bloom. The flowers are very double and full, of medium size, pure snowy-white, and borne in large clusters continuously throughout the whole season. Price, 10 cents each; strong two-year-old plants, 25 cents each.

ABOVE 3 NEW HARDY CLIMBING ROSES, 25c. LARGE TWO-YEAR-OLD PLANTS, 60c.

A SEXTETE OF POPULAR ROSES.—One of Each of the Six for 60 Cents.

SUNRISE, The New Forcing Rose.

Sunrise has taken first honors wherever shown. In close bud form it shows a deep coppery-pink, but as the flower opens the inner side of the petals shade from a clear yellow to a deep copper, making a very pretty color effect.

The fragrance is delightful, much the same as the old Rose Bon Silene. The young foliage comes a copper-bronze, and as it grows older changes to a deep green. This Rose has a good future, having been thoroughly tested, and all the qualities that make a good Rose are in the "Sunrise." Price, 15 cents each; two-year-old plants, 40 cents.

Hybrid Tea Rose, MADAME SCHWALLER.

The color is a bright rosy-flesh, paler at the base of the petals and deepening on the edges. Apt to come in clusters, which are excellent for cutting. A Rose from which we hear very flattering reports from all directions. This grand Rose has more perfume than any that we offer. Try it. It is magnificent. Price, 10 cents each; large two-year-old plants, 25 cents each.

The Superb Yellow, MARECHAL NIEL.

A Rose so famous as to really require no description. Its magnificent golden-yellow buds are worn the world over; they illustrate the globular form in its last perfection, and are almost massive in dimensions. Price, 10 cents; large two-year-old plants, 30 cents.

The White Sport of Golden Gate, "IVORY."

We are pleased to offer a most valuable addition to our list of Roses for cut flower purposes. A "sport" from the fine old variety Golden Gate, which today is probably the freest flowering Rose of its type in cultivation, but which unfortunately lacks in decided color. "Ivory" embodies all the good points of its parent—size, freedom of bloom, strong, vigorous, healthy growth with a pure white color, which makes it an invaluable acquisition to the list of forcing Roses. It has received highest honors wherever shown. Price, 15 cents each; two-year-old plants, 40 cents.

The New Rose, CLIMBING SOUPERT.

This is a climbing form of the grand variety, Clothilde Soupert. The flowers and foliage are identical with that variety, differing in that the growth is a rampant climber, as free in bloom as its parent. This makes grand plants to grow in the field, and prune or train into bush form for spring flowering, much superior to the parent variety. Color ivory-white, deepening to a rosy-blush in the center. Price, 15 cents; two-year-old plants, 35 cents.

BON SILENE.

Still a prime favorite, on account of its delightful fragrance and strong growing qualities; color, deep rose, shaded carmine. Valuable for summer or winter flowers. Price, 10 cents each; two-year-old plants, 25 cents each.

Crimson Rambler.

The color is a deep rose-pink, the inner side of the petals being a silver-rose, shading and touched with golden-yellow. We pronounce this the finest Rose by far that has been introduced from France in the past five years. Price, 15 cents each; large two-year-old plants, 35c each.

PRINCESS BONNIE

PINK HERMOSA, The Old Favorite

Everybody knows this famous variety. As hardy as an oak, and always covered with its elegant clear pink blooms. There is not a shade of color of any kind to mar its purity. We doubt if any Rose ever grown will take its place. Price, 15 cents each; large two-year-old plants, 30 cents each.

MADAME LAMBARD

This variety is planted in the South as much as any Rose on the market. A first-class Rose for garden planting or pot culture; habit of growth is vigorous and blooming quality very free. The color is a beautiful shade of rosy bronze, changing to salmon and fawn, shaded with carmine. Very sweet-scented. An exceptionally fine variety. Price, 10 cents each; two-year-old plants, 25 cents each.

New Ever-Blooming Rose, GOLDEN GATE

The flowers are extra large, very full and finely formed, and of excellent substance; the buds are long and of the most desirable form; the color is a rich creamy-white, beautifully tinged with fine golden yellow. The petals are large and broad, and exquisitely bordered and tinted with clear rose, making altogether a Rose of the rarest and most indescribable beauty. Price, 10 cents each; two-year-old, 30c each.

Tea Rose, SUNSET

A grand variety. The flowers are of large size, fine, full form, very double and deliciously perfumed; the color is a remarkable shade of rich golden-amber, elegantly tinged and shaded with dark, ruddy-copper. Intensely beautiful and resembling in color a splendid "Afterglow." It is a constant and profuse bloomer. Price, 15 cents each.

WHITE HERMOSA, Marie Lambert

Pure white. It has been called the White Hermosa, as it resembles Hermosa in form and freedom of bloom, and is quite as valuable; for, though no claim has been made for it as a fancy Rose, its persistence in bloom will make it a very popular white variety for bedding or for pots. Price, 15 cents each; large two-year-old plants, 30 cents each.

GRUSS AN TEPLITZ

A Rose that everyone should have, inasmuch as it is easy to grow and a color that it always in demand. When first opened it is a rich dark crimson, quickly changing to a velvety, fiery red. A strong grower, blooms continuously, flowers good sized and delightfully fragrant. Price, 10 cents each, two-year-old, 30c.

CHAMPION OF THE WORLD

The blossoms are perfectly double to the center, and of the most perfect shape, both in bud and blossom, while its color is a degree of loveliness which few Roses can equal, being a rich, deep, rosy-pink, darker and richer than Hermosa, and a shade the delicate richness of which is seldom seen. Its size is very large for an ever-bloomer. Price, 15 cents each; large two-year-old plants, 30 cents each.

As a decorative plant for the house this is one of the handsomest and most serviceable. It has deep green, feathery foliage, arranged in whorls, rising one above the other at regular distances; its symmetry of form, grace and beauty of foliage are unequaled in the vegetable kingdom. It is easily grown in the house and is highly ornamental. Our importation of these this year was exceptionally large and fine selected stock, especially in the medium size, for which there is always a demand. Price, nice plants, 12 to 15 inches high, 3 tiers, \$1.00 each.

ABUTILONS.

Abutilon Savitzi—The best of all variegated Abutilons, forms a compact, bushy plant, free from all trace or appearance of coarseness. Foliage bright, pleasing green, broadly edged with white, producing a cheering effect when used with Cannas or other plants as an outdoor bedder. Abutilon, Savitzi.

ASPARAGUS PLUMOSUS NANUS.

One of the handsomest of our foliage plants. The leaves are a bright green, gracefully arched, and as finely woven as the finest silken mesh. Their lasting quality, when cut, is remarkable, retaining their freshness for weeks, hence it ranks as the most valuable plant we have for this purpose, surpassing Maiden Hair Fern in grace, fineness of texture and richness of color. It is one of the finest decorative vines recently introduced; by many florists it is used instead of smilax, as easily grown and very much more beautiful on account of its light, feathery growth. Price, nice plants, 15 cents each; two for 25 cents; large plants, 25 cents each.

ASPARAGUS SPRENGERI.

When introduced, at a high price, this variety was received with some hesitation as to its desirability, but after only a limited trial it has come forward with such prominence that the supply will be inadequate to the demand for some time to come. Not only is it useful for cutting in sprays for fine cut-flower work, more particularly in connection with large roses, etc., but, grown in suspended pots, it makes one of the prettiest decorative house plants we know of. Used in decorations, as, for example, in the decorations of mantels, nothing can equal it. It is also a handsome thing for ferneries and hanging baskets. Price, 10 cents each; three for 25 cents; large plants, 25 cents each.

Chinese Azalia.

New Begonia Manicata Aurea

One of the most beautiful variegated plants within our knowledge. The plain green Begonia Manicata is a very beautiful variety, clean and glossy, bearing the veil of pink bloom above, but when we find Manicata beautifully blotched with cream color, often pure snow white, deepening into canary, no other plant that we know carries such bold markings, nor in so pleasing combination of colors. Everyone who sees it admires it the most of any foliage plant we grow. Price, 20 cents each.

Begonia Rubra.

One of the finest Begonias in cultivation. Its dark, glossy green leaves, combined with its free-flowering habit, make it one of the very best plants for house or conservatory decoration. The flowers are scarlet-rose color. Price, 10c each.

Begonia M. De Lesseps.

A charming variety on the order of Argentea Guttata, the leaf being four times the size seen in that variety, while the silky texture is the same, and is beautifully spotted with silver. A very strong, free-growing variety, that will succeed with any ordinary care, growing rapidly and sending out quantities of leaves. Price, 10 cents each.

Rex Begonias.

This class of Begonias are grown exclusively for the great beauty of their foliage, which is very large and beautifully variegated a peculiar silvery-metallic gloss. They are used for pot plants or warden cases. They dislike our dry, bright sunshine, and thrive best in a rather shady, warm and moist situation. We grow several of the most beautiful and desirable Rex Begonias in cultivation. Price, our selection of variety, 15 cents each; four distinct varieties for 50 cents.

In the vicinity of Boston no other plant is used so extensively as this graceful *Nephrolepis*, which differs from the ordinary Fern in having much longer fronds, which frequently attain a length of four feet. These fronds arch and droop over very gracefully, on account of which it is frequently called the Fountain Fern. The Beautiful Silver Fern, PTERIS ARGYREA.

A very showy Fern, with variegated foliage; fronds large, light green, with broad band of silver-white down the center of each. Very distinct. We have a large stock of this beautiful Fern. Price, 15 cents each.

Keep the leaves from dust and sprinkle slightly every warm day. Price, 10 cents each.

CYRSOMIUM FALCATUM, Holly Fern.

We consider this one of the finest Ferns in cultivation to grow into specimen plants, and while it is coarser than the Tremula Fern, yet it is very graceful and is becoming very popular. Bulbs, Plants, Seeds

A POT CONTAINING SIX FREESIA BULBS.

THE BEAUTIFUL FREESIA REFRACTA ALBA.

THE charming and novel blossoms of this popular flowering bulb are well shown in our illustration. For winter blooming in the house it is probably today the most popular of all. It is sure to succeed and flower elegantly for any one in any situation. The splendid blossoms are borne in great profusion; color purest white, the lower petals touched with yellow. The perfume is delicious, reminding one of Hyacinth, Mignonette and Jessamine combined. There are six to eight flowers on a stem nine inches high, which are particularly valuable for cutting, remaining in good condition for two weeks. Four to six bulbs can be planted in a five-inch pot, box or pan, and grown like other bulbs. By planting at intervals from September to November, a succession of flowers can be had throughout the winter. We offer the largest and finest bulbs and earnestly recommend every one to plant at least a few of this lovely variety. Price, 3 cents each; six for 15 cents; twelve for 25 cents; twenty-five for 50 cents.
